**Subject:** Gowanus Canal CAG Meeting Tuesday July 27, 2021/Citizens MGP  
**Importance:** High

Hi Doug – I know you're on vacation this week, but would like to talk with you on Monday on a few items as follows:

- On Tuesday (7/20), DEC listened in on a call with Grid and Christos and their respective consultants re: the revised design concept to close the bulkhead around the gas shaft at the Citizens site. Christos subsequently indicated via email (attd) that EPA approved the revised concept, but indicated he still has concerns re: upland contamination leaking to the canal that would be addressed separately. Christos also mentioned this concern during the call, but at the end of the call, Christos made some vague references to needing to address some concerns at another time. Grid pressed him for clarification, but Christos reiterated there would be a separate discussion at some point. Therefore, I'm reaching out to you determine what other concerns Christos/EPA may have beyond the potential for contaminant migration to the canal around the gas shaft, such that Grid/DEC can respond. Please let me know at your earliest convenience.
- Do you know the nature of Pat Evangelista's planned remarks at the 7/27 CAG meeting? I know there was much interest at the previous CAG meeting around the CSO tanks and related issues. Does Pat have any planned remarks re: EPA's review of the Citizens remedy? Were you guys were able to brief your management on the info DEC provided in response to previous concerns identified? We just want to be sure if Christos/EPA have other concerns that we aren't hearing about them at the CAG meeting for the first time.

Thanks, and hope you're enjoying your time off!  
Janet

**Gowanus Canal CAG Meeting**  
**Tuesday, July 27, 2020**  
6:30 PM - 8:30 PM

***This Meeting will be Held on Line Using Zoom***  
***Please Click Below to Register:***
